

COPPER CANYON TOUR COMPARISON

Please look at the check-list below to see what other companies offer in comparison to our tour. Most companies travel along the rim of the canyon, but fewer will take you down into the heart of the canyons due to logistics, time, distance and expense. We will take you into the depths of 2 different canyons on this tour, in order to attend 2 very unique and special cultural rituals and other historical and nature sites.

We really want our guests to feel comfortable with our price, and to understand what is being offered. (Please Note: Drinks are not included)
